OUR MISSION

Saideepa is committed to continually develop, manufacture and distribute the best quality, most economical rock drilling tools for mining, construction & water well segments, and provide the best possible value for its main stakeholders – customers, shareholders and employees.

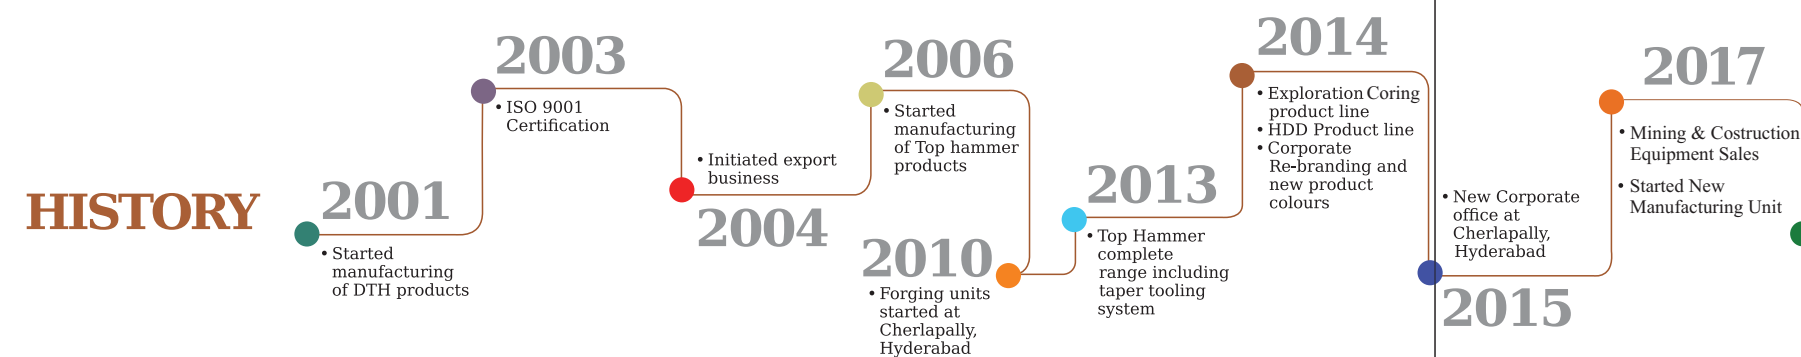

These tools are designed to transmit optimum impact energy into the rock with the least possible loss of energy, and are made to handle the toughest jobs around the globe. We plan to achieve market leadership through set of principles that guide decisions and behaviour throughout the company.

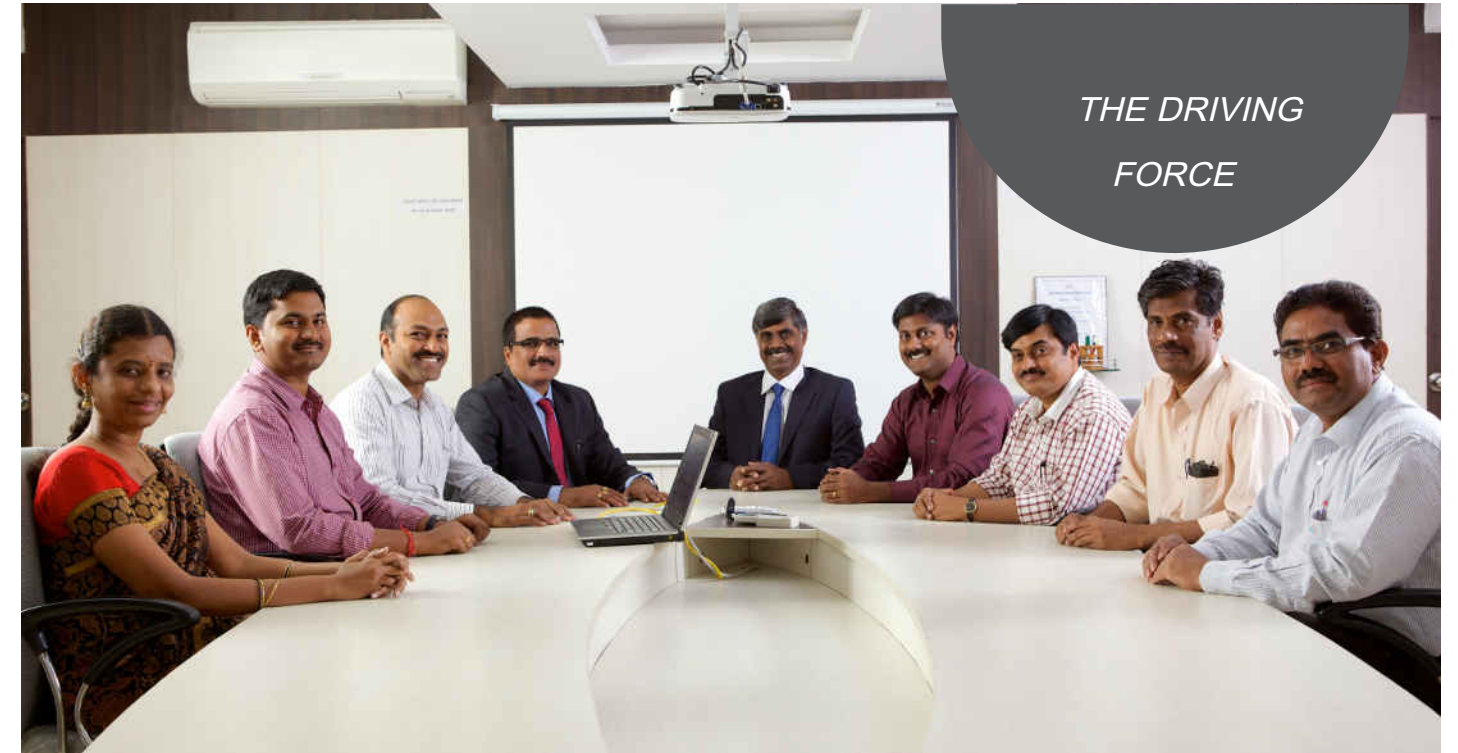

OUR CORE VALUES

- Customer Success
- Team Play
- Mutual Respect

Safety: We are committed to complete safety of employees and customers. The company has implemented key safety programs and activities, including systems and policies such as

- Training for all employees
- Special training for emergency response teams

MANAGEMENT PHILOSOPHY

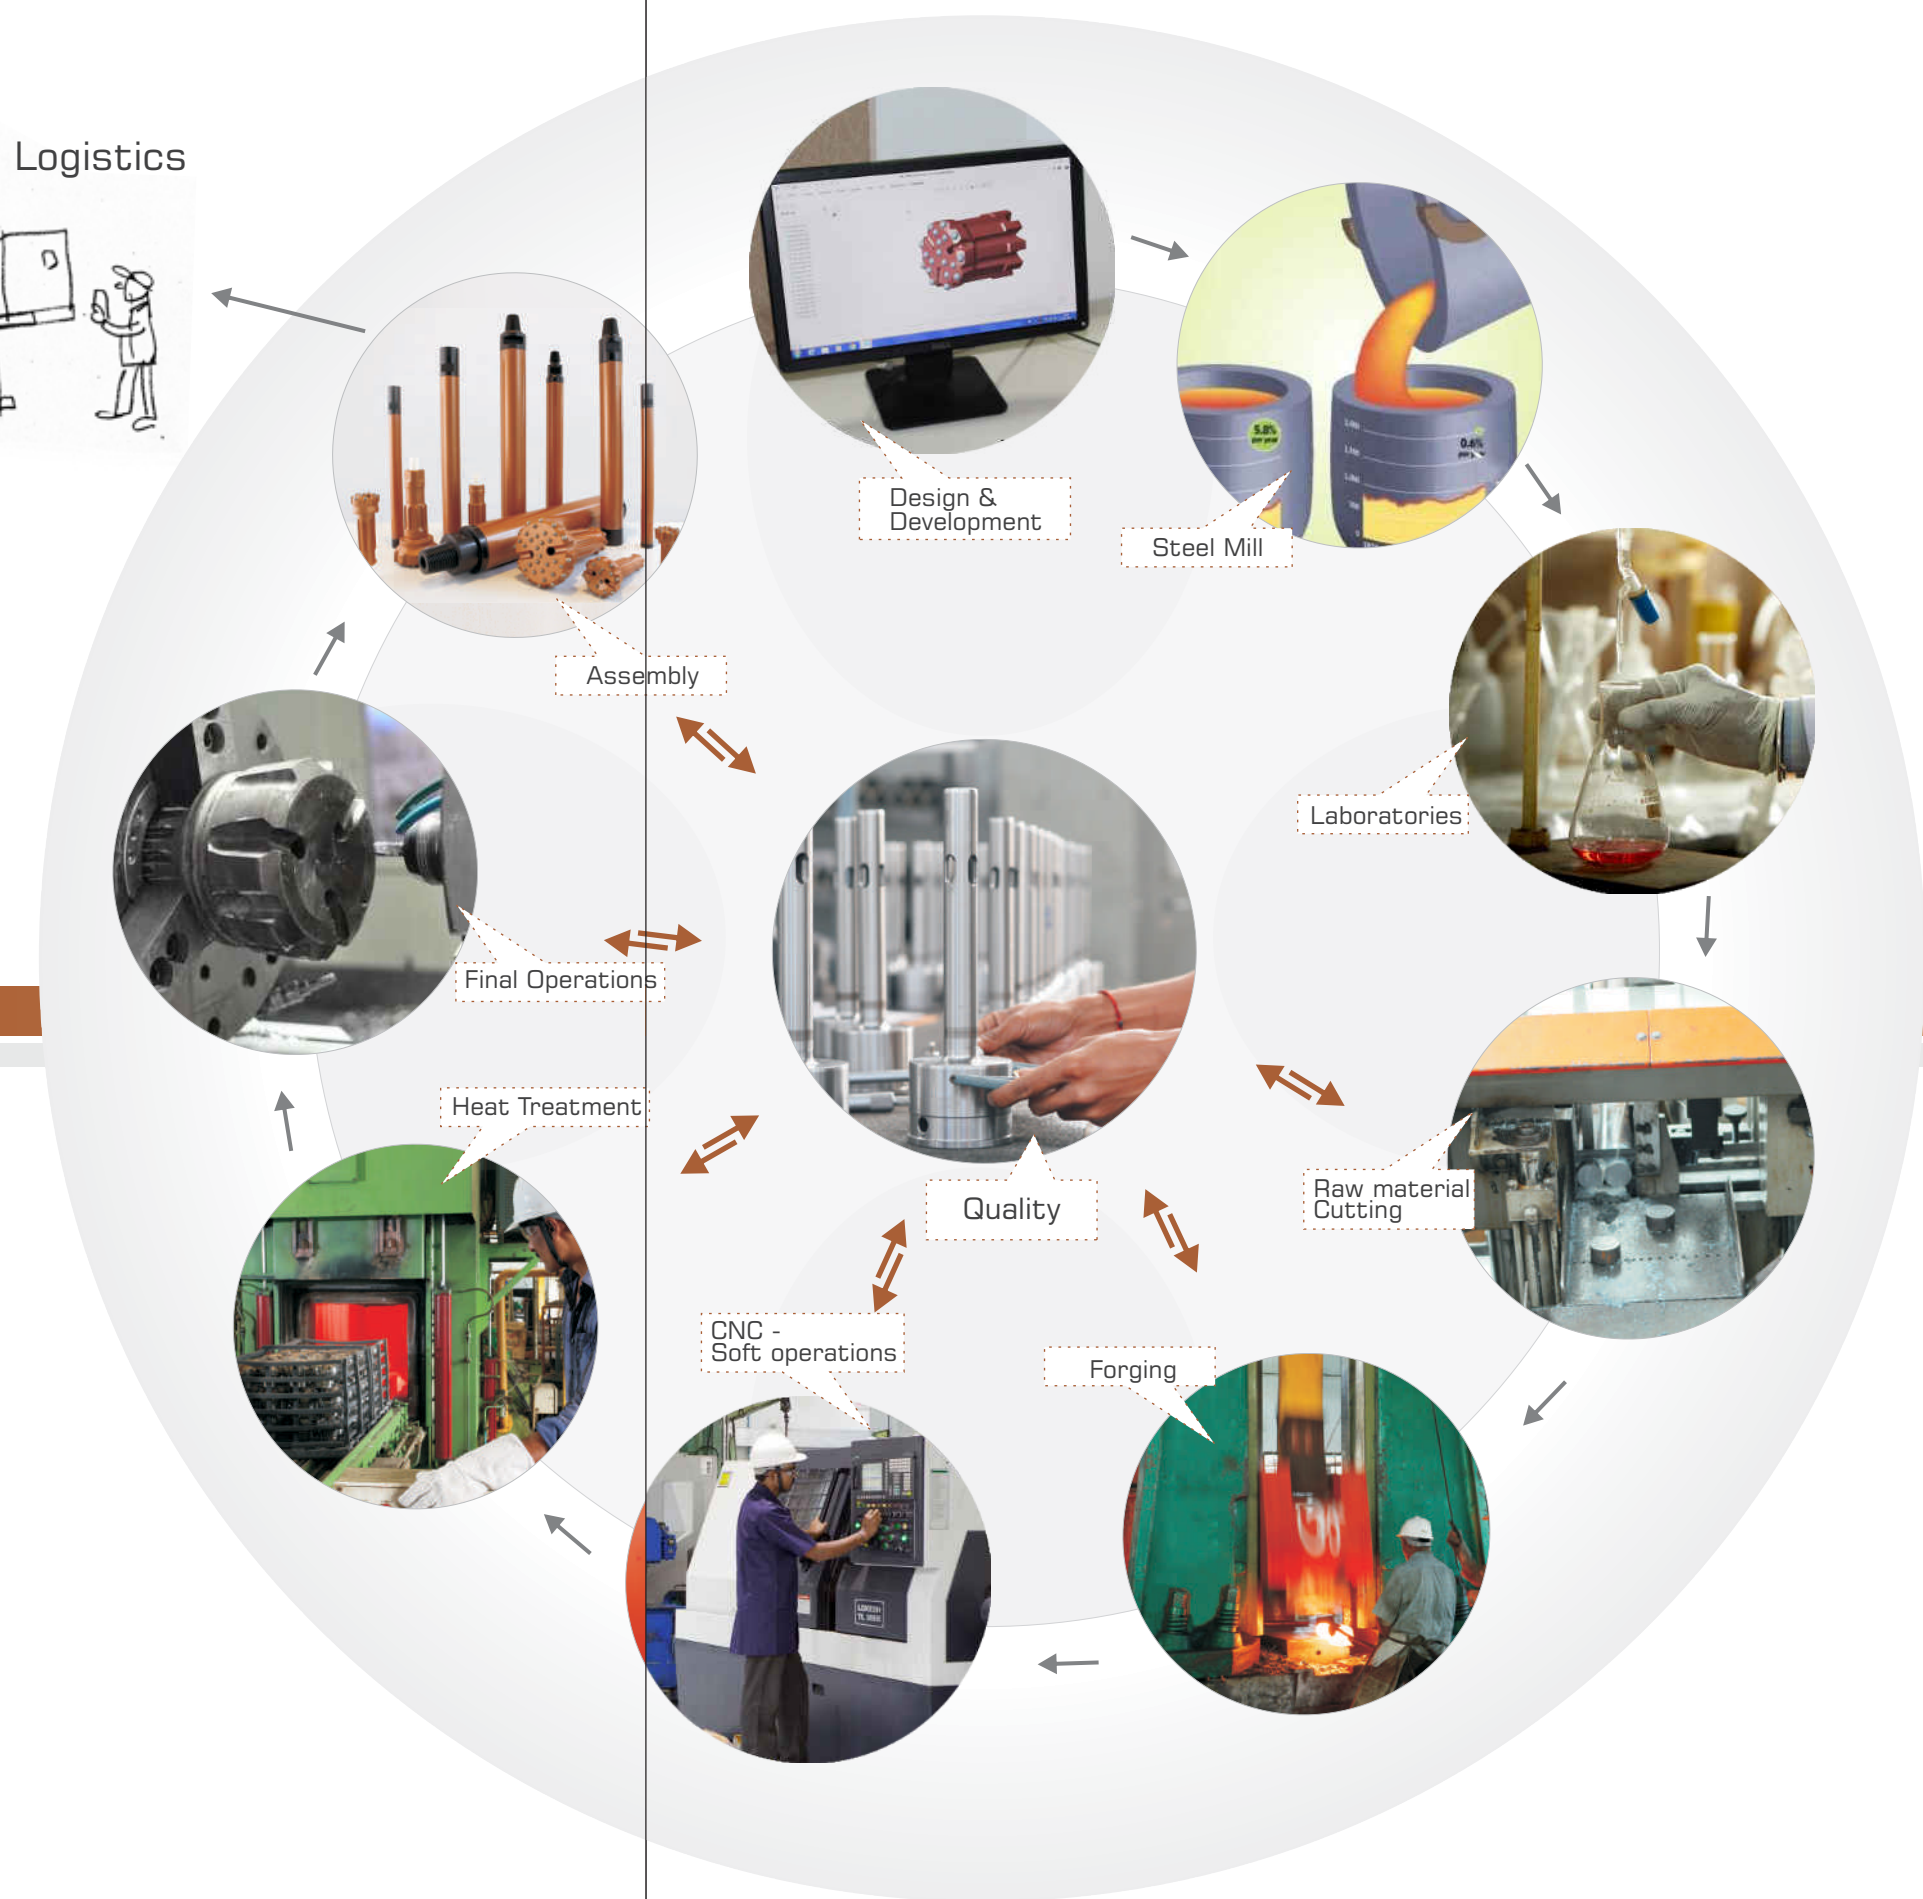

In the last few years Saideepa has witnessed rapid growth, both at home and in the international markets. However, the economic situation in India and overseas is changing rapidly. Saideepa is no exception and like many others we are facing challenges and constantly reciprocating to the fluctuating market situation.

Despite the on-going market situation, we believe that our efforts to meet tough challenges we have faced, are finally bearing fruit. The changes in the world have prompted us to analyse our core strengths, and have caused us to review carefully of how we can leverage these strengths to make a positive difference to our stakeholders.

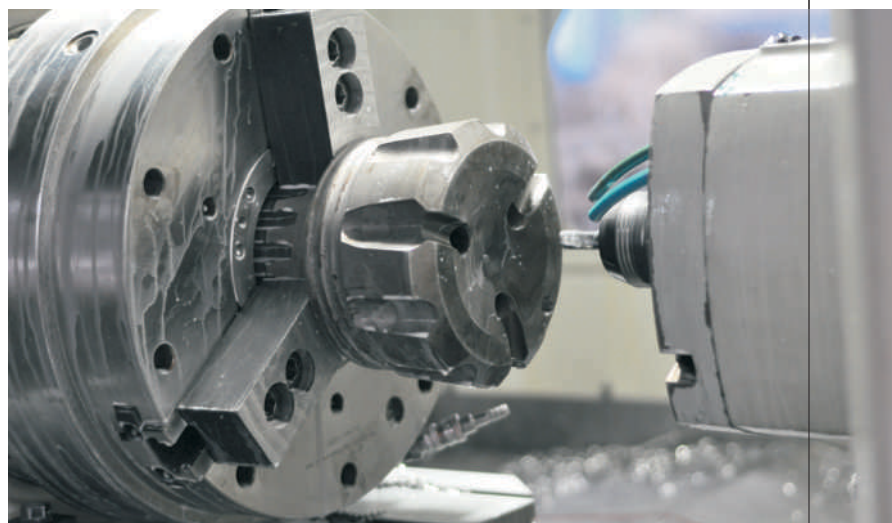

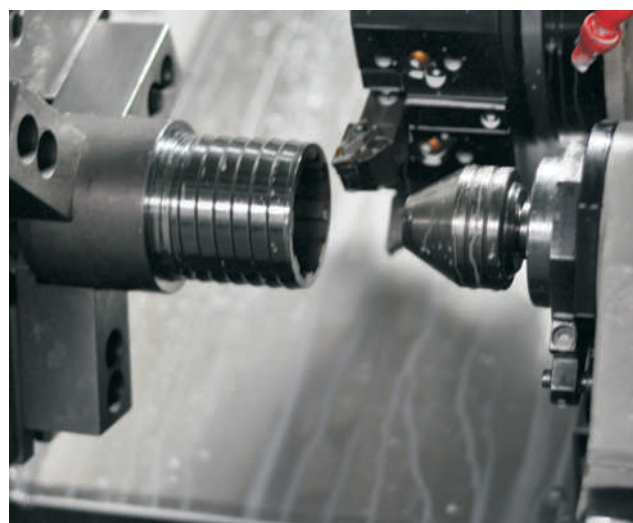

Our company was founded in the year 2001 to supply quality rock drilling tools at economical prices and to create good value for our customers in every market where we do business. Exports started in the year 2004 and our products found a place of credibility in the international market.

The years ahead are certainly going to be exciting ones for Saideepa. We are looking forward to your support as we move forward.

MANUFACTURING PROCESS

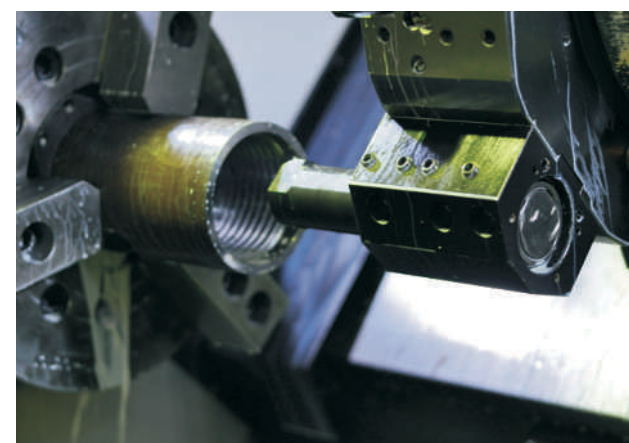

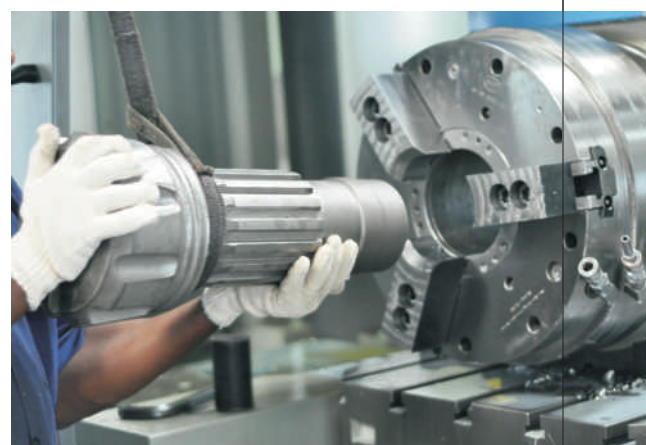

We have the total control over the process of our products, from the raw material stage to the finished goods stage. This is possible because of intricate knowledge of raw material selection, in-house steel Forging expertise, Hitec CNC machining centers, Seal quench Heat treatment facilities and modern metallurgical laboratory.

OUR WORLD CLASS INFRASTRUCTURE

Our manufacture facilities bring together high-tech machinery, advanced manufacturing techniques and highly skilled people to produce some of the most advanced rock drilling tools to meet the growing needs of the Indian and international customers. Currently our manufacturing facility has 3,00,000 Sq feet of covered area and in the new expansion phase, some more production units are planned, which will be operational in the years to come.

The facility is equipped with all the modern technologies such as Closed / Open die Forging plants, Cutting machines, CNC milling, turning , drilling centres ,High end seal quench heat treatment, Shot Blasting Painting and packing facility to produce world-class rock drilling tools. Quality consciousness is paramount in every procedure that is implemented throughout the manufacturing unit, without compromising the final product quality or customer experience.

OUR PEOPLE, OUR TRUE STRENGTH

We strongly believe that our strength lies in our people. People are our main assets and it is they who ensure our success time and again. Success demands that we continuously raise the bar of our collective performance. Toward this, we aim to facilitate environment that will motivate our associates and translate into superior levels of performance.

We believe in continuous education of our associates and strive to provide the best training facilities that will keep us on par with the best professionals in our field. We strive to provide a climate that nurtures the holistic development of our associates.

DOWN THE HOLE ROCK DRILLING TOOLS

Saideepa is a leader in design, manufacture, servicing and repair of Down-the-Hole (DTH) percussive rock drilling products. We offer market's most comprehensive range of DTH hammers and button bits. DTH product solutions are for water well, mining and as well as for contractors in construction. Our DTH products include:

- Down the Hole hammers (2 - 12 inches diameter)
- Down the Hole Button bits (2- 24 inches)
- Down the Hole over burden drilling systems (4 3/4 - 12 inches)
- Frictional Welded and Induction hardened Drill Pipes and Adaptors
All thread types, male and female [API 2 3/8, 2 7/8, 3 1/2 and order specific]
Excellent wear resistance and longer life

FEATURES & BENEFITS

- Time tested and proved
- Low on fuel High on penetration
- Designed for maximum performance in low pressure operations
- Rugged and Reliable

TOP HAMMER ROCK DRILLING TOOLS

Each project needs to achieve the best possible operating costs and outcome for business. Complex rock formations and difficult terrain can be a real challenge for any driller. With a range of solutions and high quality, durable top hammer drilling tools, Saideepa partners with you to succeed in reaching optimal project outcomes.

Saideepa top hammer rock drilling tools have been specially designed for hard to very hard and abrasive rock formations. Our bits have shown increase in penetration rate and also a substantially longer service life.

Our Top hammer products include:

- Taper rods and bits
- Complete range of threaded button bits
- Drifter rods and extension rods
- Coupling and reduction sleeves
- Shank adaptors suitable to all hydraulic drifters

PRODUCTS

- Rock Drilling Tools
- Hydraulic cylinder parts
- Hydraulic breaker parts
- Crusher parts
- Under carriage parts
- Ball and Socket end fittings for Ht lines

FORGING SOLUTIONS

Saideepa is a leading supplier of closed and open die forging products for Rock drilling tools, hydraulic breaker parts, supplier for forged hydraulic cylinder parts to well-known manufacturers like Wipro India and Brazil.

We are known for fair and open dialogue with clients and suppliers. Our strong presence in the above segments is guaranteed by innovative light weight solutions with application of advanced materials and optimized product design. Customer satisfaction remains our top priority.

The company's product line, engineering design, metal working, Heat Treatment and machine centers supply fully ready to use machined forgings to required dimensions.

THE TRUST
THAT GOES IN

We have attained a wide customer base spread across the Globe

OUR ESTEEMED
CLIENTELE

We strongly adhere to our core values of quality, safety and environmental care. Owing to our premium quality of products and prompt delivery, we have attained a wide customer base spread across North & South America, Europe, Africa, Asia-Pacific and Australia.
